

WCODE-Box

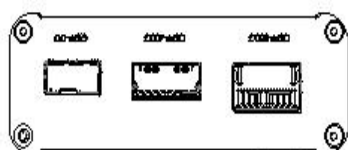

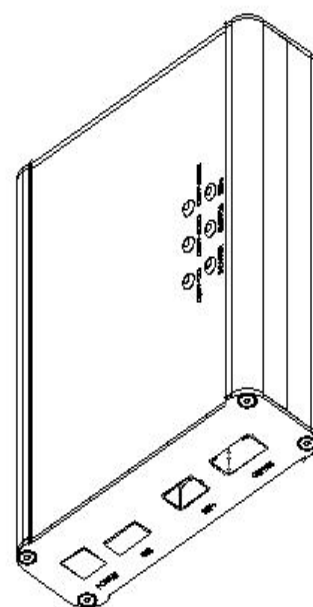

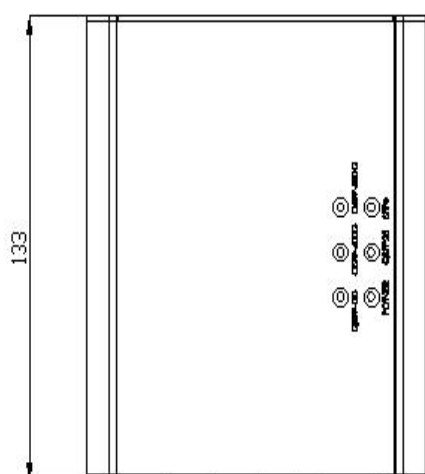

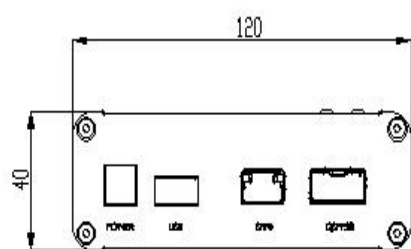

Product Features

- 5V supply voltage
- Supports low-power mode
- Support SFP/QSFP/OSFP/QSFP-DD package module
- The independent indicator light displays
- Use USB communication
- Online module reading
- Firmware saving and modification of open area information
- DDM/DOM data monitoring
- Convenient for transportation
- Compliant with SFP/SFP+ /QSFP+/QSFP28/OSFP/QSFP-DD MSA
- Compliant with SFF-8472/SFF-8636/CMIS.

Description

This product supports multiple optical SFP/SFP+/QSFP+/QSFP28/OSFP/QSFP-DD, featuring USB connectivity for communication and configuration. It enables online reading, and modification of user-configurable areas, while providing real-time DDM monitoring capabilities. The device can set modules to low-power mode, incorporates individual presence indicators, operates on 5V power supply, and boasts a compact, portable design ideal for field applications.
